

SIDE EVENT

# 2022 UN OCEAN CONFERENCE

BUILDING A BRIDGE BETWEEN SCIENCE  
AND SUSTAINABLE ACTION IN MANAGING  
IMPACTS OF NON-INDIGENOUS SPECIES IN  
THE MEDITERRANEAN SEA

PRESS LINK FOR AGENDA

PAVILLION OF KNOWLEDGE  
28 JUNE 2022 17.00-19.00

You are invited to join our discussions on the impacts of Non-Indigenous Species (NIS) on marine biodiversity, methods of conservation and management; understanding the effect of multiple stressors on the ecosystems and developing solutions to increasing resilience; citizen science on identification, stocktaking and reporting of NIS; socio-economic impacts and innovative adaptations techniques such as introducing alien species in the diet and supply chain of Mediterranean countries.
